Take on the challenging and varied adventure of unlocking the mystery of the Dark Planet. The Dark Planet is where you will face off against 3D, top-down and side-scrolling enemies, bosses and alien creatures from the universe and use a variety of weapons to save your home planet from destruction. 2.0.5 Feb 18, 2018 This update contains one new map, additional wallpapers, and bug fixes. Dev. Date: Feb 19, 2018 Dev. Update: This update contains one new map, additional wallpapers, and bug fixes. A long-time, yet short-lived, grudge, has taken hold between the Dark Cloud and the planet of Almata, whom the Dark Cloud pillages for resources. The Dark Cloud needs a temporary home for its troops and ships to construct a mighty fortress to reclaim Almata from its oppressors. The cloud soars high into the sky to find a suitable world, while you must explore Almata to locate the resources needed to build a space fortress. But the once tranquil Almata is now overrun with alien and high-tech scavengers. Armed with nothing but your wits and a single laser pistol, you must destroy your enemies before they destroy Almata. Prepare for a hard fought journey of survival as the Dark Cloud army descends on Almata. Sink into the desolate landscape of ruined cities and the grimy swamps as you begin your search. Are you up to the task of surviving and defeating the Dark Cloud army and reclaiming Almata? Game Features: Amazing 3D graphics/Look and Feel Fight against the four major enemies of the Dark Cloud. A variety of weapons to defeat your enemies. Discover new weapons as you progress through the game. Find hidden structures and lost items. 2.0.5 Feb 18, 2018 This update contains one new map, additional wallpapers, and bug fixes. Dev. Date: Feb 19, 2018 Dev. What's new in Starry Makino:

The Moon, also referred to as Luna, is a celestial body located in orbit around Earth. The Moon may be studied for its physical characteristics. It provides us with some of the night sky's brightest stars and galaxies. Often, people feel lonely when the Moon is out, thinking, "Who is there to be with me on the planet's surface?" Sometimes, a quiet walk outside is the only company we have. Still, we humans are voyagers by nature. We plant the seeds of new life during spring from time to time. We need to keep moving in order to keep our spirits alive. When night falls, Moon Light becomes our companion. Moon Light can be used in baths for its relaxing properties. Vibrate it with a massage tool for a relaxing experience. Vibrate Moon Light until it becomes a solid substance with electrical properties. Place 1 moon crystal on the ground. Hold 1 finger on the crystal and move your finger across the stone. Move it back to the center, where you want the vibrations to start. Move around the sky as if you were walking through the night. Worship, sing, dance, or whatever you wish using Moon Light as a companion. Other charms, talismans, and spells can be made using Moon Light. Place the moon crystal in the water of a fountain or bowl. Moon Light Facts Luna's phases correspond with the lunar cycle. Phases appear to be slow on Earth, but are actually very fast on the Moon. Full Moon is the last of the four phases that appear. Waxing Moon is one of the four phases that appear. Waning Moon is one of the four phases that appear. New Moon is one of the four phases that appear. Luna Projection: Moon Light can be used as a magnifying lens. Place a Moon Light on your eye, as if you were staring at the moon. The crystal will amplify the moon's reflection. You can use this a magnifying glass. Moon Protection: A good place to keep your magical tools is in the moon phase in which they will be needed. For example, rituals that require spirits may work best in the waxing or waning phases of the moon. Moon Color: Blue Moon Song: I know you're really somewhere else. But you're only appearing here in my eyes... Other spell ideas: Commanding moon light: Turn of the moon

The fast offshore supply & utility vessel "Deniz Doga" is a one of a kind vessel combining speed and agility with real working power. Take its helm and embark on missions supplying offshore platforms, investigating and marking specific diving areas and even using its rescue capability to tackle emergency situations. The offshore industry is something special, and this vessel fits perfectly in the unique landscape of oil rigs, VLC Carriers and offshore supply vessels that Ship Simulator Extremes has to offer. Get on board and enter the offshore world! • Set sail for the offshore world! • Navigate through the water using the intuitive interface • The dynamic water simulation recreates the movement and behaviour of the sea. The waves roll in, the wind blows and the sea loses its surface tension. • From a view with a bird's eye perspective, the slo-mo cockpit camera allows you to experience the different movement patterns of the vessel. • The durable hull is built with 40 layers of high strength steel. It also features an auxiliary engine with three separate packages, each capable of 5.8 kW (8 hp). The vessels hull is completely watertight, making it a perfect sailing vessel. • All the equipment and communication systems from the offshore world are present, including a RJ45 IP-Based network interface, an Anemometer, wind speed sensors, a GPS and a communication system. • Keep the boat's systems in perfect order by fulfilling the needed service stops. • Tackle emergency situations, a rudder control or a trim-tab adjustment are only a few of the things you can do to prevent the boat from going overboard. As the vessel's engine is not operational, there is nothing to fear! • Crew cabin and controls are intuitively arranged, making it a pleasure to navigate the boat. • The realistic toolkit includes many extras from the offshore world. This includes, the big container wheel, a container crane and an oil rig derrick.
